## How would I describe myself?

- Workaholic
- Curious
- Team Work
- Crazy Ideas

**Meta Description:** Bluesman, programmer, human-interface researcher, life-time student, geek, UX developer, computer engineer, spaceman...

**What I research:** Concurrent Engineering, Model Based System Engineering, Space Engineering, Small Satellites, Human Machine Interaction, Tangible User Interfaces, Augmented Reality, IoT, Graph Theory, Space 4.0, and Industry 4.0.

## Experience

### 2016-2018 CubeSat Program Manager (CTEE)

INPE Activities: Program and Project management, K12/college divulgation, and Electrical Architect.

### 2016-2016 Air Force College Lecturer Apprenticeship

ITA Subject: Rocket Design and Mock-up Implementation.

### 2013-2017 Alumni Workshop Organizer (WETE)

INPE Activities: Event planning, receiving papers, schedules, and proceedings publication.

### 2012-2012 Federal University Substitute Lecturer

UNIFEI Subjects: C Programming Language Introduction; Computer Architecture and Organization; Virtual and Augmented Reality.

### 2011-2012 Virtual and Augmented Reality Researcher

UNIFEI Activity: Development of Virtual and Augmented Reality Environments to Science Museums.

### 2009-2009 Computer Engineering Apprenticeship

MECTRON Activity: Development of drivers in C/C++ for onboard satellite computers using the SPARC architecture and RTEMS operational system.

### 2002-2003 Junior Programmer Apprenticeship

CWS Activity: USB-CAN converter/sniffer development using Motorola HC908.

## Education

### 2014-2018 Doctor Degree on Space Systems Engineering and Management

INPE Thesis Project: Developed a Tangible User Interface (Spatial Augmented Reality interface and IoT artefacts) to support a Model Based System Engineering collaboration at Space Systems Concurrent Engineering Concept Studies Facilities.

### 2012-2014 Master Degree on Space Systems Engineering and Management

INPE Dissertation Project: Developed a XML based satellite simulator with real-time math parser, and a 3D simulation data navigation front-end to a Satellite Operational Simulator.

### 2005-2010 Graduation on Computer Engineering Degree

UNIFEI Final Work: Reviewed, and tested, Augmented Reality (AR) technologies to museums, based on: ARToolKit, OpenCV, and Wiimote.

### 1998-2003 Industrial Computing Technician Degree

ETEP Final Work: Embedded Spectral Analysis software to industrial colour selecting machine.

## Supplementary Formation

### 2000-2001 High School Exchange Program - North Newton Jr./Sr. High School - Lake Village – IN – USA

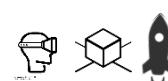

Cisco CCNA. Network Design. Certification period: 2001-2004

2008 CI-2008. Satellites and Space Technologies Winter Course.

## Other Skills

ARToolKit, ARToolKitPlus, OpenCV, Kinect, openFrameworks, C/C++, MATLAB-Simulink, IoT development (mostly Arduino, Raspberry, and ESP8266), small background in JavaScript (Material, Angular and GOjs) and Java, Software Engineering and Design Patterns. OPM, Capella (Sysml), CubeSats Portuguese Native Language and English Fluent

## Publications:

### Book Chapter:

- KIRNER, C., CERQUEIRA, C. S., KIRNER, T. G., 2012, **Using Augmented Reality Artifacts in Education and Cognitive Rehabilitation**, Virtual Reality in Psychological, Medical and Pedagogical Applications, InTech, DOI: 10.5772/46416.

### Journal:
